EDUCATION

Master of Technology
Kurukshetra University
2024- Pursuing

Bachelor of Technology
Kurukshetra University
2019- 2023

TECHNICAL SKILLS

- Unreal Engine 4,5
- Programming languages (e.g., C++ ,Blueprints)
- Game design and development
- Game optimization and performance tuning
- Virtual reality (VR) and augmented reality (AR) development
- Character Animations and IK Retargeting
- Version control systems (e.g., Git, Perforce)
- Physics Simulation
- Gameplay Programming
- Third Party Plugin Integration
- Cross-platform development
- Networking and multiplayer systems
- User interface (UI) and user experience (UX) design

VARUN THAKRAL

Unreal Developer

ABOUT ME

I'm Varun, a passionate and dedicated Unreal Engine 3D Game Developer with nearly 2 years of hands-on experience designing and developing engaging gameplay systems and immersive environments. Having worked on multiple game projects across PC and mobile, I've honed strong technical skills in Blueprints, C++, level design, optimization, and AI logic. I thrive on turning creative ideas into playable, polished experiences.

WORK EXPERIENCE

Sunovatech India
Unreal Developer

November 2025 - Present
Delhi

Zatun
Unreal Developer

November 2023 - 2025
Ahmedabad,Gujarat

PROJECTS

1. Down And Out - VR Game

Published - 2023

Platform - Steam , Meta Quest 2 , PS5VR2

Link:- https://store.steampowered.com/app/1450060/Down_and_Out/

- Contributed to the development of Down and Out, a VR-first open-world brawler that combines freestyle combat with immersive city exploration, offering players a unique street-fighting experience.
- Implemented adaptive AI systems that respond to player fighting styles and designed interactive urban environments featuring mini-games, side quests, and dynamic NPC interactions.

2. Project Pneuma(WIP) - Horror SCP Survival Game

Platform - Steam , PS5 , Xbox

Language :- Blueprint (visual scripting language) , C++

Link :- https://store.steampowered.com/app/3872430/SCP_Project_Pneuma/

- Project Pneuma : An SCP Story is the first ever game based on SCP foundation that follows a well craft story and aims to immerse the player into the world of SCP.

HOBBIES

- Playing Games
- Watching Movies

FAVOURITE GAMES

- Red Dead Redemption 2
- The Last of Us
- The Walking Dead
- BGMI

- Contributed to character setup, animation, AI, UI, and VFX for a co-op horror game inspired by the SCP universe. Designed and implemented gameplay systems featuring entities , creating an eerie and immersive world with emotional and suspenseful storytelling.

3. Death Rush : Zombie Apocalypse

Published – 2025

Platform – Android (Available on Play Store)

Link:- <https://play.google.com/store/apps/details?id=com.Zombie.hunter.DeathRush>

- Designed and developed Death Rush: Zombie Apocalypse, an action-packed mobile game featuring intense zombie shooting gameplay, diverse weapons, and challenging boss battles.
- Implemented immersive post-apocalyptic environments and rescue missions, enhancing player engagement and strategic depth.
- Integrated RESTful APIs for dynamic content delivery, implemented AdMob/META ads for monetization, and developed a multi-weapon inventory system to enhance gameplay depth and player engagement

4. Great train Outlaws (GTO)

Platform – Arcade Version LBE

Link:- <https://deployreality.com/synthesivr/games/great-train-outlaws>

- Built and optimized multiplayer + dedicated server systems for a co-op VR LBE game .
- Developed player, gameplay, and interaction mechanics for immersive train-heist experiences.
- Integrated LBE workflows (session flow, free roam setup, instant play) for arcade deployments.

5. Metaverse

School , Museum Prototype

Link:- <https://drive.google.com/file/d/1A1KkLMBqw63pxwjGky4hh2rzJJDurxC-/view>

Link:- <https://drive.google.com/file/d/1OfP5nymQftKVIMtFZfLnZ0-bbBERjf4/view>

- Developed a School Metaverse experience where players explore futuristic school architecture and interact with AI-powered teachers, students, and receptionists.
- Implemented dialogue systems for study-related conversations, enhancing realism and educational engagement.
- Designed and implemented an interactive UI system for question-and-answer conversations.
- Created a Museum Metaverse where players explore detailed architectural spaces and interact with virtual visitors and guides.
- Implemented interactive exhibits with descriptive dialogues and UI panels explaining statues, artifacts, and historical context.
